Subject: Rahway Arch Site in Carteret, New Jersey

Commissioner Martin,

As you may know, my EPA colleagues and I visited the Rahway Arch Site in Carteret, New Jersey yesterday. Also at the site were Ken Kloo of your staff and others representing the Mayor of Carteret, the site owner, and remediation consultants. During EastStar Environmental Group's presentation we were able to ask questions which was very helpful to us. It would be helpful for EPA to be able to review the broader site file. I was informed that I needed to contact you directly for these files as a result of my staff's request being denied. I am trying to establish a more comprehensive understanding of site conditions.

Please provide EPA with a copy of each of the following:
